Summer is a time to enjoy good music, healthy foods and Family! In August, The McKinney Foundation will focus its educational programming on matters related to health and wellness. In an effort to ensure a healthier metro Detroit we are collaborating with the healthcare community to provide a unique array of activities that center on chronic health concerns affecting our city.

The 6th Annual "Celebrating a Healthier Detroit" Expo is a fun filled event with a serious purpose! To take place on **Wednesday August 5, 2015** from **9:00am–5pm** at **William G. Milliken State Park & Harbor** poised on the banks of the Detroit River. The purpose of this Expo is to 'close the knowledge gap' and to reduce health disparities in metro Detroit, especially for Detroiters who were recently 'uninsured or underinsured'. By bringing together the greater health and wellness communities to educate families about relevant health issues and share programs that are most beneficial to creating and maintaining a healthy lifestyle.

The Expo consists of **Informational Seminars, Invited Speakers, and Exhibits** targeting health issues relevant to our community: Prevention and Behavioral Health, Stress Management, Obesity and diet-based diseases with an emphasis on childhood obesity, Depression, hyper-tension, diabetes, heart disease, stroke, asthma, HIV/AIDS. Wellness for the entire family, Nutrition and Fitness. This event features healthy cooking demonstrations and tastings for the entire family, free give-a-ways, prizes, music, song, dance and more!

Come join us in celebrating healthy Children, Families and a Healthier Detroit!

The McKinney Foundation's goals to achieve for the "**Celebrating a Healthier Detroit**" Expo:

1. The Expo will attract over 1,000 Metro Detroit families;

Goals are achieved in collaboration with local, state, and national health and wellness partners.

The Mission of The McKinney Foundation is to strengthen the metropolitan Detroit community by reinvesting in the citizenry through quality educational programs which help promote healthy living, entrepreneurship, and environmental responsibility.
